

PALESTINE

THE CANADIAN connection IN THE CURRENT CRISIS

PUBLIC FORUM

In the spring of 2006, democratic elections saw a majority of Palestinians support a new government under Hamas. Stephen Harper's Tory government shamefully led the international community in imposing a siege on the Palestinian people for exercising their democracy under Israeli occupation, the first time in human history that sanctions have been imposed on a people under occupation. Since then, the US, EU, Canada and Israel have worked to bolster the regime of Mahmoud Abbas as he works to negotiate away the historic rights of the Palestinian people to the delight of the Israeli apartheid regime.
